

Philanos Education Committee

About the Committee

The Philanos Education Committee is tasked with identifying, producing and disseminating engaging and relevant educational and reference content for Philanos affiliates and their members. The primary accountabilities of the committee include:

- Planning and delivering 8 one-hour interactive, educational webinars modeling peer-to-peer learning on topics that are relevant and inspirational to our affiliates and their members. The committee also recruits presenters for the webinars.
- Creating and maintaining a user-friendly web-based library of best practices in collective giving and the trends in the philanthropic sector, including knowledge-sharing among Philanos affiliates.

Committee Members

The Philanos Education Committee is co-chaired by Ellan Bernstein of Impact100 Philadelphia and Deborah Majewski of Women's Impact Fund, Charlotte, NC with support from Philanos Administrator Nancy Clark.

The Philanos Education Committee is comprised of both Philanos board members and Philanos affiliate members with a passion for informing and engaging the Philanos membership.

Skills/Interests

We welcome Philanos affiliate members with experience or interest in developing content, planning and hosting webinars, and researching and identifying best practices in philanthropy to join us.

Serving on the Education committee is a great opportunity to work on the national level promoting giving circles and the collective giving movement, collaborating with others across the country, learning new skills, and sharing information and resources with your affiliate.

Time Commitment

The Education committee meets four times per year via phone or zoom. In between committee meetings, committee members will meet with a subgroup of the committee to plan a webinar and/or provide ongoing guidance to the committee.

Contact co-Chairs Ellan Bernstein at ebernstein@philanos.org or Deborah Majewski at dmajewski@philanos.org with any questions and/or if you would like to join the committee.
